The Radicals in Congress are much puzzled, according to the showing of their newspapers, as to the animus of Senator Sprague's erratic curse (so-called.) "What does it mean?" is in everybody's mouth. Grave Senators cannot be brought to think for a moment that the man can be actuated by disingular that the man can be actuated in every direction. Provident is actual for the streets. passengers and froight is a great end, worthy of the struggle of the people of the Mississippi Valley.

Nearly three hundred thousand dollars in money and work has already been subscribed to the capital stock of the Company. The Lousiana Legislature has passed a bill subscribing one hundred thousand dollars of stock to the Company. An additional sum of that smount will, without a doubt, be subscribed by the same body. The Company have resolved to take lands for stock, and this is the feature to which they desire to call the attention of owners of real estate. In the Southern States, on account of the disorganized condition of labor, lands are an incumbrance. Vast tracts that yield no revenue to the proprietors, pay exurbitant taxes, and thus cripple their only productive resources. This Company propose to take these lands at a full value, so will the stock enhance in value, so will the stock enhance arry in his pocket the equivalent of his lands, to be converted into money or property without delay. The success of this great enterprise is nein his pocket the equivalent of his lands, to be converted into money or property without desay. The success of this great enterprise is beyond question. The stockholder, in addition to the nenetiof the enhanced value of his lands, will be part owner of a line of boats, and be entitled to dividends in their eardings. Persons wishing to exchange lands for the stock of the Company will send to the Agont at Mamphis a description of them, their productive qualifies, the timber, bottom or upland; whether overflowed or not; if overflowed, what proposition; how near to county-town, to religious depot, river, and all facts necessary to afford the Company a satisfactory idea of the land. This may be done by certificaten of reliable, dishterested persons residing in the neighborhood. The present actual value of the land may be proved in the same manner. The party offering lands must state in his proposition the lowest figures he will take. The Company will not give exorbitast prices. The titles must be ununumbered by ladgments. The interpretations of the land that the ununumbered by ladgments of the contractions of the contractions of the state of the contractions of the contractions of the state of the contractions of the land may be proved in the same manner.

The Assets of the Company are only any win norgy of exercitizate prices, titles must be ununtumbered by indigme norigings, deeds of trust, tax litles, or office, this may be shown by official cerates of judges, clerks, shoriffs, or the opini f respectable stiorners. This is believes the best graceful for the contraction of the prices. the best opportunity to displace of surplus ands in the South and West that has yet been or can be offered.

Many of the best and wealthiest citizens of the South and West are warmly embarked in the South and West are warmly embarked in the enterprise. The General Headquarters of the Company are in New Orleans, but sgencies

exist in all the principal cities. The enter-prise has been endorsed by Underwriters, chambers of commerce, Engineers, Mechan-ics, practical navigators, and all classes of praccans on Bonds and Mortgage, being the first lien on unincumbered Real Estate, worth double the amount tical men.

The foregoing facts are submitted to the pub-lie in the confident belief that they will be unobts otherwise secured... derstood and appreciated. All other recurities.
